

Series 400-402

Header Fitting Socket Fusion Plates and Installation Hand Tool

Poly-Cam header fitting tooling is perfect for installing 799 series fittings in main pipe, blind flanges, and other molded fittings. You have the ability to custom-fit outlet sizes .5"-2" National Pipe Threads. They are designed to bolt to McElroy heater plates.

Parts can be ordered individually or in kits.

Please inquire with your Poly-Cam sales team for field installing instructions.
