

## **Certification of Compliance with American Iron and Steel (AIS) Provisions**

*The following statement refers only to transition fittings that have been specifically requested to meet AIS provisions:*

Upon request, Poly-Cam, Inc., located in Anoka, MN, certifies that it can produce all of its transition fittings in compliance with the American Iron and Steel requirements as mandated in the U.S. Environmental Protection Agency's State Revolving Fund programs.

Upon request, Poly-Cam, Inc. certifies that all steel used in the transition fitting were sourced and manufactured in the United States of America.

Please direct any question or inquires to the team at Poly-Cam, Inc.
